

What's New?

Do something good for the planet while you're doing something good for yourself. "Drink Water" is the directive from every health and fitness advocate, and with summer on the way (believe it or not!) start stocking up to keep everyone hydrated and healthy. We have a veritable smorgasbord of water options for you, including Dasani bottled water. If you like the convenience of bottled water, but don't like the plastic waste, Dasani is now bottled in a more earthy-friendly package, using 40% less plastic. The bottle is made up to 30% from plants and is recyclable.

Kelly

FiveTwoSix
Salon
St. Paul

FiveTwoSix Salon is ready to take care of all your hair care needs, and more. It's a spa, a gallery, a skin care and make-up center. Kelly is one of the friendly voices on the other end of the line when you call and the first person you meet when you walk in the door. She's the ultimate multi-tasker, scheduling appointments, answering phones, ordering supplies, keeping the stylists on-schedule, introducing new clients to the specialties of the salon — as well as working with Al's Coffee to serve clients the best coffee around. She is also a self-described fitness nut. She's into martial arts and strength training. Kelly has a background as a nutritionist and has her own consulting business, Benefit Nutrition. But that's not all! Her two kids keep her running, too. She says at least she doesn't have to worry about keeping track of the coffee; Al's Coffee is very responsive to the salon's needs and provides a great variety of coffee for the staff and clients.
